📍 Krakow/Poland

PROFILE

- Two years of programming experience in designing and developing websites and applications on different platforms.
- 5 years of research experience in Mathematics.
- Perfect problem-solving skills and time management.
- Strong abilities in learning new technologies.

EXPERTISE

- JavaScript, React
- HTML, CSS
- Node.js, MongoDB
- Python, SQL
- Git, Github

LANGUAGES

TURKISH

ENGLISH C1

POLISH B1

EXPERIENCES

Pomenar App | November 2022 - Current

Front-End Developer

- Design and develop UI for the application using React and CSS
- Writing unit, integration, and end-to-end tests for front-end
- Code review and maintenance for UI

Technologies:

React, JavaScript, Redux, Css, HTML, MongoDB, Docker, Git, GitHub

Fortuna Design | April 2022- August 2022

Freelance Web Developer

- Collaborating with clients to determine website requirements
- Designing and developing the website as a full stack developer

Technologies:

JavaScript, CSS, HTML, Node.js, EJS, MongoDB, Git, GitHub

EDUCATION

Ph.D. in Mathematics | 2018 - Current

Jagiellonian University - Poland

- Research on Dynamical Systems and Ergodic Theory

Master of Science | 2016 - 2018

Jagiellonian University - Poland

- Degree obtained in Pure and Applied Mathematics

Bachelor of Science | 2011 - 2016

9 Eylul University - Turkey

- Degree obtained in Mathematics

SOFT SKILLS

- Team player
- Lifelong learning
- Analytical thinking
- Problem solving
- Organizational skills

CERTIFICATES AND TRAININGS

The Complete Web Development Bootcamp | October 2022 | Udemy.com

- Designing and developing more than 50 websites as a full-stack web developer
- Creating and learning REST APIs
- Practicing responsive web design and design methods for UI/UX
- Learning on structured and unstructured data

Technologies:

HTML, CSS, JavaScript, Node.js, Express.js, React, EJS, SQL, MongoDB, REST API, Git, GitHub

JavaScript Data Structures and Algorithms | March 2023 | freeCodeCamp.org

- Learning deeply JavaScript data structures and object-oriented programming concepts
- Solving more than 100 algorithm questions
- Creating 5 JavaScript projects

The Complete Python Pro Bootcamp | Current | Udemy.com

- Performing 100 days of code challenges
- Improving skills in software and web development
- Practicing object-oriented programming concepts
- Strongly learning Python libraries such as Turtle, Pandas, tkinter, matplotlib, Django, Flask, and more
